CAREER GOAL

Detail-oriented aspiring Frontend Developer with a background in management and technical fields. Passionate about building responsive web applications using JavaScript and React. Looking to leverage my problem-solving skills and international experience in a Junior developer role.

SKILLS

- Excellent time management and prioritisation.
- The ability to lead a team effectively.
- Excellent communication skills.
- Willingness and motivation to learn and develop.
- High motivation at work. Friendliness and a positive attitude towards people.

LANGUAGES

- German: Communication (focus on written correspondence and internal communication)
- Polish: native language
- English: (B2/C1) Proficient in spoken and written English, experienced in international correspondence

HOBBY

- Programming (JavaScript)
- Read (articles on technological innovations)
- Sport (I go for a 5km run twice a week to relax)

EXPERIENCE

2023... Junior Frontend Developer (Self-Taught).

- **Intensive IT reskilling:** daily learning of JavaScript and front-end technologies (React, HTML, CSS).
- **Portfolio building:** independent development of responsive web applications and code management in Git.
- **Technical development:** learning clean code, solving logical problems, and working with documentation.

2020–2023 Heating Engineer at Work in Time Frechen / B&S Haustechnik Cologne (Germany)

2017-2020 Running your own business in Spain/Gandia.

- **Comprehensive rental management:** managing the check-in/out process, providing guest care, and ensuring the standard and aesthetics of the apartments.
- **Technical maintenance:** ongoing repairs, maintenance, and monitoring the technical condition and cleanliness of the property.
- **Logistics and customer service:** organizing airport transfers and building positive relationships with international guests.

2012–2017

Manager bei Pizza Hut in Salisbury/Shrewsbury (Großbritannien) .

- Team management during working hours.
- Quality control, finance and marketing.
- Ensuring customer satisfaction and the smooth operation of the entire facility.

2006–2011
